

CIRCULAR NO.06/06

Dear Parent

7th February 2007

Your attention is drawn to the following news regarding our Nursery:

Youth Football Association-Annual Book

The Youth F.A. is preparing for the first time a year book which amongst others will feature items on all nurseries affiliated with the Association including individual photos of **all children** in the Nurseries. For this purpose they have prepared a common form in accordance with the Data Protection Act, to be signed by all parents, allowing the Association to include these photos in the Year Book. We are including the form with this circular which is to be **immediately** returned to us with your signature if you find no objection for their inclusion. Please note that if we do not receive your consent by the **20th February 2007**, your child's photo will not be submitted for inclusion.

Nursery website

A new item has been included in our ever popular website, which is called 'Forum'. Its purpose is to allow anyone to make any comments he/she wishes to make mainly regarding our Nursery and its activities but not only. These comments are to be kept short and there are basic ethical rules to be followed. Visit our website for more info.

E-mail addresses

More addresses have been received but there are still a number of parents/children who have not yet given us their e-mail address. Kindly do so urgently, to facilitate our work and so that we may keep you informed quickly of important developments in our Nursery

Pembroke Athleta Sports Club

As we have already informed you the planned Annual General Meeting of the Sports Club has been postponed to September (copy enclosed) when it is hoped that one of the other disciplines will have clarified its position in the Club in view of its liaison with another club/town. **We also wish to inform you that contrary to some persistent rumours our Nursery/Football Club/Sports Club is not negotiating with any other football club/nursery for the further development of our facilities.** In the meantime plans for the implementation of the next phase of the Sports Complex project (five a-side pitches & Club house) are being prepared. Full details will be communicated later this year.

10th Anniversary of our Nursery

It has been 10 years since our Nursery was founded and appropriately a number of activities are being planned to celebrate this event. You will be informed accordingly.

Best Regards
Yvonne Debono
Administrator/Secretary

n.b. ordered track suits and kits are now available –all sizes
